* THE END *

THIS WEEK.

MW.....PANTER RADIO, Heard in a Dutch QSO, and also mentioning a address, if anyone understands Dutch please contact me, to decipher it!

SW.....FRS-HOLLAND, Heard with Part One of their Christmas Party Special.

px, R RAINBOW, Back to 200 watts this week, "Going back in time Show" new

4 FREEDOMS R NETWORK, The new name of Rebel etc since 1,12 it seems,

popped up for 4 mins. with J.Eg with no ID, the a record intro & played ! The

address seems to have changed also, when heard last week, more info soon.

STATION RIV/D?, This could be R Ridiculous who sometimes shortens

there name, heard on 6,270 only playing piano mx, heard on 6,295 CQ 48 .

FREE MEDWAY TOWN RADIO, FMTR have been busy, on test on Sat they anx

they have a new YL presenter, the no name anx, two new frqs heard on now.A

anx on Sat also said for Xmas would have special on next Sat on 9 to 1700.

STARBOARD SOUND, Px" Flashback 67" Heard, with Andy Walker. On 2 week

FOR ALL CONTRIBUTIONS... (INITIALS ONLY!) TFRR, c/o PENCARTH, PENNANCE LANE, JUST DIAL-FIRST INTERNATIONAL, IF YOU PREFER TO TELEPHONE YOUR LOGS TH.

THE FREE RADIO RENDEUVU...The one with more than you would expect!****

Well their gentlemen is a prevelow of" The Great TFRR ", which will start being published 24th,December, tho maybe later than that because of the festivities.

TFRR will feature the following A station log part of SW & Dutch 0000+ GMT MW stations, with a THIS WEEK section with each week, then their is the news section, which will feature new, gossip etc on the WHOLE Free Radio realm, also a station spotlight will be featured occasionally, Postbag of TFRR will be in also, and finally,Visa News,which will have news via personnal letters, station's free radio pxs, and from other free radio magazines.

Of course all this will be space permitting, as it will have only 4 pages, with two of these only being loggings Contributions will be gladly appreciated to the address mentioned on the sample copy, the contributions that I really want are ones on new free radio stations, the next txs of stations, and veiws on free radio & anything else that is asked for in TFRR.

Also" Diary Dates ", on free radio stations soon to be on will also be in the magazine.

Abbreviations in the logbook will be used alot so a sheet on what the abbreviations mean can be obtainable for SAE in Great Britain, or 2 IRCs overseass. That abbrev.sheet will also have subscription rates and what TFRR aims for(well you know what I mean) included also.

" TFRR Address List ", is also available for extra 50p or 2 IRCs, this will have all the address in it that are featured in" The Free Radio Rendevu ", the addresses by the way are the ones in brackets, like this (50).

For the benefit of the free radio magazines this is sent to, here are a few more bits of news.

WEEKEND MUSIC RADIO, Anx on 15.12 that they were also testing on 6.315 and 6.325 early in that morning, anyone hear it?

According to one of TFRR Loggers R Skywaves was on today also.

STARFLEET RADIO, Will be heard on Christmas Day via Radio Delmare on 6.205 khz at 1130 to 1300 GMT. They plan to be on SW and start on MW for '86.

RADIO TUTENCHAMUN, Test tx via RMI be heard 21.12 from 11-12", on 7.295 khz.this tx will be ALL in English, and address anx in Spanish, French, Dutch and German will be heard. Next tx via Delmare will be on 5th.January '86 when again the px will be mainly in English to attract more people.

Finally, TFRR are also seeking contributors and of course subscribers from the continent and Scandinavia, so please send them in, credit will be given if wanted.(When space again permits).

We hope to hear from contributors and subscribers soon.

Yours in Free Radio, TFRR. Merry Christmas.

FOR ALL CONTRIBUTIONS... (INITIALS ONLY!) TFRR, c/o PENGARTH, PENANCE LANE, LANNER, REDRU TH, CORNWALL, GREAT BRITAIN TR16 5TW. if you prefer to telephone your news and logs then first dial the international code for GREAT BRITAIN, then ring (0309) 217637.

Eureka! I've discovered Page Four.

(72) **RADIO GULCH**. No 'av' haven't for gotten there posting address: (72) c/o M13, Shearwater, W. England, GREAT BRITAIN.
(73) **RADIO PALOMA**. Can be heard from their MW Fq. on a 2nd. harmonic on Sunday mornings on 4710 SW.
(77) **P.P.F.B.S.** Upgrading tx to 25 to 30w & in about 2 weeks, will be on either 6295.33, or 6315.55kHz. They are shortly using the (77) posting address which also will be used by Radio Panels, PFBS, Europe Radio Int. (Which is a project involving PFBS, Panels and Cammell). The (77) posting address is: P.O. Box 1225, 4354 Datteln, F.R.G. **R. STATION** the relay outlet of PFBS will continue to use (12) posting address. Station will again be relayed possibly via Tonsair contact which you can win a Caroline British Top 500 poster by answering question which is ?
(77) **R. PAKIA INT.** Steve West the op. has built a lower power tx of 5w and high power transmitter of 10w which he intends to test shortly on 6298.89 on Sundays and possibly on 6,200.4 SW on a Saturday too.
(71) **RADIO PELTAAGAR**. A new station from NL hopes to come on 1508MHz in March, they have been logged before on this Fq. Their posting address is: P.O. Box 454, Doetinchem, HOLLAND, which will be NL No. (71)
(2) **PONNEY'S FREE BROADCASTING SERVICE**. A joint venture between the famous free radio listener Alan R. Ponney and Pirate Andy of PFBS - others. They went on 498kHz. It was a long time since a FR at was actually heard on the 498kHz. It's future uncertain, probably irregular.
(60) **R. HENRIKSSON INT.** Actually dates back quite a while, op. is called Chris Patricks, if anyone is interested!
(40) **RIVERSIDE R. INT.** The op. Jos Coshin who is presently running on SW on 6210, is having built a new 50w by his friend Michael Celine (Wasn't he in the film?) of Skywaves, and hopes it to be operational, in sometime in March this year. All reports are guaranteed with 38L.
(2) **SOPHISTICATED RADIO SYSTEM**. Are presently testing on Sunday mornings on the 6000 (which is becoming popular in FRO FR etc.) on either 5300 or 5310kHz. Though when heard, it seems they come on for a very short while, power unknown, and come on, on the hour. They have only been heard once so far on 6235 on 20/11/85!
(50) **TAPER (TRANS ATLANTIC YR)**. Who were the one's mentioned in TFR 5 have popped up with their own pxe on 5300 and 6275 playing "I Spy P - or the DTT" by the Noronic Surveyors. They were only testing, with 30 watts from FRO. Though their address is in US, and they offer a range of US tape recordings.
(58) **R. TORENTAL INT.** They'll be transmitting (tx) every 1st. Sunday of the month on 1030 kHz at 0030 GMT. Occasionally via Tonsair on either 5300 or 6298 SW. Though I expect the tx will drift about 5kHz.
(77) **WABC INTERNATIONAL**. Are hoping to come on SW every Sunday from about 13th. March on 6245 SW and 1152 MW transmitting from Ireland.
All rest of news held over to next week, now the long awaited: Radio Enterprise NL = **FREE RADIO POGGIN** = Radio Enterprise NL

Started in the 70s. First on MW, later on VHF, though ended there after many raids. Then got in contact with the British R Apollo who now relays them. First relay via Apollo was in 1983 and received many letters. Then came back a few more times a year, each being 30 mins in length. In those 3 years got almost 100 letters. Their old posting address was: POB 2006, 3500 GH Utrecht. But had to change it because of the bill. Now use: P.O. Box 15074, 3501 DS Utrecht, NL. (to be 3)
R Enterprise NL sometimes takes pxe for Apollo in Dutch and German, and for Radio 48 and Radio Spectrum. Go on be on SW again via Apollo. Some days they hope to have their own transmitter. They are to be heard on 1615 SW via NL at soon. **Tal List:** Podney, Dario, Bjoern, Michael Geisel, Thomas Sonntag, KC, Paul Barrett, FR Focus next on S.B.C. Cheera:
Nothing must be copied in any form unless notifying the editor first Printed in GREAT BRITAIN, in the Duchy of Cornwall by the Copy Centre in Redruth. World rights reserved. Copyright 1986. Sample of TFR, costs only 40p in Great Britain, or 1 US Dollar in Europe & overseas.

THE FREE RADIO RENDEVOU

No. 7 Yr. 15 Next TFR: 20/3 Sample copy is 40p in GB or 1 US Dollar * For the fortnightly fun of free radio festivities, see TFR, the only one * with the logs and news for ALL Europe *

FRB: Much better than snowy Britain last week!
 SW. BRITAIN R INTERNATIONAL. Had a shorter px today, seemed like they and RECC were sharing transmitters because of such a short gap ???
 RADIO "C". Heard in Great Britain with excellent reception. Now on a daily 24 hour basis so won't report them anymore after this issue. Tx from Bolzano, Italy though they have posting address in FRG.
 RECC. Anx by op. himself that they're are going to start testing on 1150 SW around the end of March, and if successful be on regular.
 RI. Have a new posting address: (73): 31 Mountjoy Square, Dublin 1, REP. OF IRELAND. Same tel. no. though. New DJ called Richard. News who presented a live Irish folk music px. He has posting address of: 67 Yunnore Lane, Ballymount, Dublin 24, REPUBLIC OF IRELAND.
 RADIO ORION. New British SW station heard testing quite regular & in the weekdays. Testing, RF for Europe is 3 IRECs: Anx telephone no. 1. SHARROCK R INT., (After tel. op.) Their tx was pre-recorded and d one by Gerald Roe (well known Dublin DJ) who anx 7320 but they weren't on it, because of technical problems. So tx on 6950 (!) instead. This transmission was one of their rare ones and only plan to come on to SW irregularly. Anx home telephone number on air.
 WERTSIDE RADIO. On their tx on 23/2 for North America have of yet had no reception reports for it. 9/3 relay R Limit Int. for half a hr. More news & Orion's posting address, see the news on page three.

P3 W... free

(1) R APOLLO INT. Made a tx on 1615 NW on 15/2 did anyone hear it?
 (2) R ASTOR. (Anything to do with Healey's contest.) Are making tests on 10250 SW at 1600-1800 GMT on Sundays. Other times have been noted. Origin and px & adr unknown.
 (3) R AFES. Have been continuing there tx off Lundy Isle (That's near ad a home? Be wasted journey anyhow!) Tx from a Japanese research station (I thought all at Lundy was reb- bits) called Fuji Oil (Well at least it isn't privatized, yet!)
 (4) R AFES. I forgot to say, here is the news held over from last week. Then the A-2 order will continue.
 (5) R AFES. UPDATE: TFR 5: 6.499 2/2 RSTATIONS R. Test at 1323 GMT. 7.255 2/2 RSTATIONS R. Of course is KBR. Was not relayed by R Earth, see other news on that score.

7.255 2/2 RMI 1. This was RMI relaying their Italian domestic service on 1301 MW and 1041 VLF. Op says this will not be regular. US Top 40 sometimes heard in weekdays. Other times have been noted. Origin and px & adr unknown.
 7.315 2/2 RECC. Were on this fq, too, apart from their 6230, tho not heard in Great Britain because of VOFB on 7315!
 7.373 2/2 UDVA. Was Crystal? If you notice the logging on them on 7375 you'll see how they were on 7375 SW too!
 (-) VOICE OF PEACE. Heard first by Dario Monfardini 10 weeks ago (!) with their 2nd: harmonic on 3060 SW from 1530 MW, best time to listen is at 0130 GMT (!) though might be audible in Great Britain at 2000 GMT.
 (-) WAS MUSIC R INT. Is planning to come on SW, in the mid or end of February. Come from Galloway, IRELAND. Could this be the UDVA heard on 6254 NW back to the A-2 order?
 (-) FREE RADIO RENDEZ-VOUS CLUB. Of P.O.Box 99, Northampton, England. (67) BRITAIN relayed a large range of items (including a quarterly seq.) for 25 British sterling. Worth writing to.
 (1) R JOYSTICK INT. who are now being relayed via Radio 101, because of relay problems with RMI, have plans for a VHF et. in a part of FRG.
 (2) RADIO JESSICA. Made a engineering test tx on 28/2 with pro jingles, sounding rather like a offshore et. because of nearly non-top ex. when writing to them, address it as: The technical Director, JR, then (2) Also mentioned the "Jessica Radio Network" (Your network in the future) was mentioned, write this time to JW. (The posting address is: (69) THE JESSICA. The story of this station has (The op. of KBRB) op. KBRB since 2/83) then in 1984 changed name to KKEY then during March '85 was raised but came back on air. The 2nd. raid was prompted because of his "Abraham the Alien" txs. The US DTI got any etc. making fools out of them. The tape relayed by RMI is the only one apart from the original! & no wonder! The bloke who posted the tape of KBRB thought it might be too outrageous for Europe (AFES ?! Well that's US too, well all yanks are twats anyhow!). Also sent to Dario of RMI was 30 minutes of Voice of Le-zingue (VOL) (Sounds like part of your throat!) which is supposed to be the most creative et. in the US (Can't wait to see it, I expect the thing about yanks before was true!). Anyone heard VOL relayed? VOL PA: 69 (58) KING RADIO (British). Have a new DJ called Penny Rogers. 16/2 they relayed 4 year old recording of R Southern on 6300, and relayed AFES and own px on 6210. Listen out for this station, under Riverside Radio!
 (8) KLA RADIO. A reminder that they'll be on Easter Monday (3/3) on 6320 (That day is when British Summer Time begins, confusion!) at 0900 GMT (Remember, TFR keeps to GMT all the year round, to avoid confusion!)
 (9) R LIMIT INT. Their relay on 22/2 was all in German though had nearly all British records played so quite easy to report. Use to use (5) posting address, what's it now. Audio was poor on 22/2 via R Milano Int.
 (70) R MARGOT INT. When the cars were being stuck in Great Britain, someone picked them up, though they were stuck in Great Britain, and that a broadcast station blurred then out. Language was hard to make out though might have been English. When they moved from 11570 SW unknown.
 (63) R NIGHTRIDE. Or in Dutch R Nacht Rider. They come on only on Saturdays and have only a crystal for 1612 (Who said they heard them on 1613?), tx with 300w and antenna is 18 metres high, the operator is 21 years old. He hopes to come on 7360 SW at 0900 GMT on a Sunday. Mostly in Dutch because op. doesn't know much English. Was it then on 7360 SW?

"The Free Radio Rendevu" is first the international code for GREAT BRITAIN, then it is (0209) 217637. The one with more than one would expect!"
